Important Symbols

Vehicle Belts

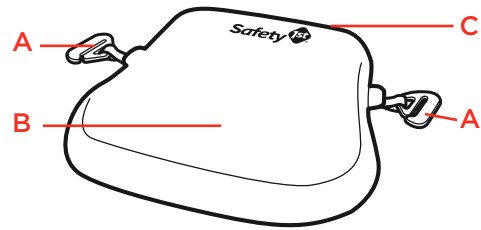

See page 9 for vehicle belt information.

To help you recognize instructions which are most critical to your child's safety, we use this symbol.

Failure to follow these warnings can result in the serious injury or death of your child.

Parts of the Booster Seat

- A. Lap Belt Positioners**
- B. Booster Seat**
- C. Instruction Manual Pouch**
(on back of booster seat)

Cleaning the Booster Seat

Spot clean with warm sudsy water, rinse clean, and air dry.

Do not use bleach or other harsh cleaners.

Do not dry clean.

Booster Seat Use

Do not use a booster seat that has been in a crash or a collision. The system must be replaced.

Do not use a booster seat if you do not know the history of the restraint.

Never take your child out of the booster seat or attend to the child's needs while the vehicle is moving.

Never leave child unattended in the booster seat.

To avoid the child being seriously burned, always check for hot seat and buckles before using this booster seat.

Do not use a booster seat with missing or damaged parts.

DJG does not recommend the use of accessories or add-ons that have not been certified with this booster seat at original purchase date.

Never allow any child to play with this booster seat; it is not a toy.

Do not remove the warning labels.

This booster seat has been certified for use in passenger vehicles only. Do not use in a boat, on a motorcycle or in a cargo van or bus where there are no seat belts.

3

Do not leave on stove top or any other hot surface.

On the back of the booster seat there is a date of manufacture label. Do not use this booster seat more than 10 years after date of manufacture.

Read all instructions and warning labels for additional warnings.

Installation in Vehicle

Check the vehicle belt before each use. Use only if the belt is tightened properly and securely.

When unoccupied, the booster seat must be firmly secured to the vehicle with the vehicle's seat belt only.

In a crash or sudden stop, an unsecured booster seat could injure the driver or other occupants in the vehicle.

Always check vehicle owner's manual for proper use of vehicle seat belts with your booster seat.

In very few vehicles, the booster seat cannot be properly installed because of the type of seat belt system or airbag system. Always read and follow the vehicle owner's manual instructions for booster seat use.

4

Vehicle Seating Position

Always check vehicle owner's manual for booster seat use with side airbags.

For vehicles with no rear seats, check the vehicle owner's manual for location and installation of a booster seat.

Use the booster seat only on vehicle seats that face forward.

Do not use on seats that face the sides or rear of the vehicle.

For vehicles with an airbag, but without a back seat, refer to your vehicle owner's manual.

If you are not sure where to place the booster seat in your vehicle, consult your vehicle owner's manual or contact Dorel Juvenile Group Consumer Relations Department.

Children are safer when properly restrained in rear seating positions than in front seating positions.

According to accident statistics, children in rear seating positions are statistically safer, whether you have airbags, advanced airbags, or no airbags at all.

To avoid your child being seriously burned, take the following precautions:

1. Park in the shade or where sun does not directly hit the booster seat.
2. Cover the booster seat with a sheet or blanket when not in use.
3. Check for hot seat and buckles before placing child in booster seat.

To help protect your vehicle seat's upholstery from damage, use a single layer towel underneath and behind booster seat.

Transport Canada Regulations

Transport Canada Road Safety Directorate regulates children's restraint systems under the Motor Vehicle Restraint Systems Safety Regulations (RSSR).

The regulations require the manufacturer and/or importer to certify the child restraint to the applicable safety standards and place specified warnings and information on the labels fastened to each child restraint and in this instruction manual.

Storing Booster Seat

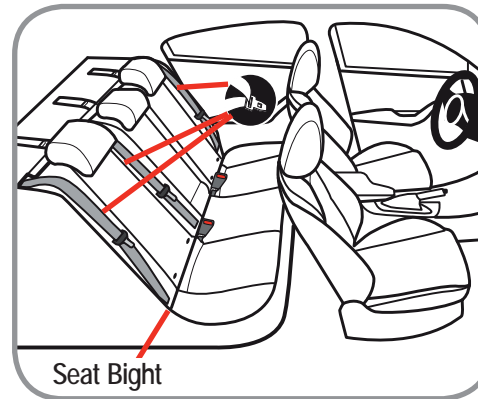

To protect your booster seat, store in the house, not in the garage or attic.

The hot and cold temperatures can harm the seat if stored for a long period of time.

Understanding Your Vehicle

Your vehicle's features may be considerably different than those pictured here.

Consult your vehicle owner's manual to help identify your vehicle's specific features and locations.

Vehicle Seat Belts

Review your vehicle owner's manual for vehicle seat belt use with booster seats. This is your best source for information concerning your vehicle.

Not all vehicle belts will work with this booster seat. This booster seat must be tightly locked in place at all times during travel. You must determine if your vehicle's belts are compatible with this booster seat.

Vehicle Belts

• Automatic/Passive vehicle seat belts

You **MUST** have a vehicle lap and shoulder belt to install any booster seat.

• Vehicle belts in center of the door or side panel

You must move the booster seat to another seating location.

• Vehicle belts that are in front of the seat bight

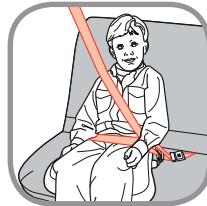

You may need to move the booster seat to another seating location.

This booster seat is not certified for use in aircraft because aircraft seats do not have shoulder belts.

Booster Seat

27-54 kg
(60-120 lb)
119-152 cm
(47-60 in.)

At least 6 years old

Lap/Shoulder Belt

⚠ WARNINGS: Use only the vehicle's lap and shoulder belt system when restraining the child in this booster seat.

Do not use this booster seat if the tops of your child's ears are above the top of the vehicle's headrest.

Verify your child's weight and height (do not guess) before using this booster seat.

Failure to follow these warnings can result in serious injury or death.

11

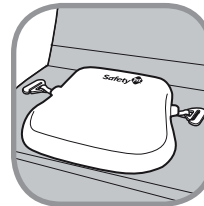

Lap and Shoulder Belt Installation

⚠ WARNINGS: Do not use only the lap belt when using this seat as a booster seat.

The shoulder belt must always be adjusted snugly across the child's chest. NEVER place the shoulder belt under the child's arms.

Failure to follow these warnings can result in serious injury or death to your child.

1. Place Booster Seat Forward Facing Flush Against Vehicle Seat Back

Center the booster seat in the chosen seating position.

The back edge of the booster seat should be flat against the vehicle seat back. Vehicle seat back must be upright.

continued on next page 12

2. Place Child in Booster Seat

Child should sit with their back flat against the vehicle seat and their bottom flat against the seat base.

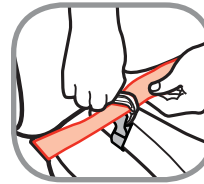

3. Position Lap Belt on Child

The lap belt should lay snugly across the child's upper thighs and not on the stomach.

4. Buckle Vehicle Belt

13

5. Attach Both Lap Belt Positioners

Slide the lap belt positioner on each side of the seat onto the lap belt.

6. Position Shoulder Belt on Child

Pull up on shoulder belt to tighten.

The shoulder belt should lay snugly across the center of the child's shoulder and across the chest and not on their face or neck.

Check periodically to ensure your child has not moved out of position and loosened the shoulder belt.

14

Dorel Juvenile Group Information

Thank you for choosing this booster seat. The DJG family is committed to creating child restraints with the most comfort and convenience available today.

Remember, parents are a child's first teachers and examples. If you always buckle your seat belt, your child will think it is the natural thing to do.

Make it a firm rule that the vehicle does not go until everyone is buckled up. Make no exceptions.

No one can predict if use of a child restraint will prevent injury or death in a particular crash. However, when combined with careful driving, proper use of a child restraint can lower a child's risk of injury or death in most crashes.

Your child's safety is worth the time it will take to read and follow these instructions. After reading, if you still have questions or have any concerns with this child restraint, please contact our Consumer Relations Department at:

Registration and Safety Notices

Although booster seats are tested, evaluated, and certified by the manufacturer and tested by Transport Canada, it is possible that a safety-related problem may be found. If there is ever a safety issue with your booster seat, we use registration information to reach owners.

Consumer: Just fill in your name, address and email. Please print.
Client: Simplement inscrire votre nom, adresse et courriel. S.V.P. imprimez.
Your Name/Votre nom: _____
Address/Votre adresse: _____
Email Address (optional)/Courriel (optionnel): _____
Model Number: 22123CABC
Line Code: S CARSEAT
Date of Purchase/Date d'achat: 2015/01/22
L#11 B265035

Example of model number, manufacture date, and line code.

If you don't have the card or if your address changes, you will find the model number and manufactured date on the label located on the back of the seat.

There are three additional ways to register your information:

Online: www.djgusa.com/registration/carseat/can

Telephone: 1-800-544-1108

Mail: Send your name, address, and your booster seat's model number, manufacture date, date of purchase, and line code to:

Dorel Juvenile Canada
873 Hodge
Attn: Consumer Relations
St-Laurent, QC H4N 2B1

Please do not send in your registration card if you have registered your booster seat online.

For information on safety-related problems, you can also call Transport Canada's Road Safety Department at: 1-800-333-0371.

Warranty

Dorel Juvenile Group, Inc. (DJG) warrants this product to the original retail purchaser as follows:

This product is warranted against defective materials or workmanship for **one year** from the date of original purchase. **An original receipt is required to validate your warranty.** DJG will, at its option, provide replacement parts or replace this product. DJG reserves the right to substitute if the part or model has been discontinued.

To make a claim under this warranty you may email us at consumer@djgusa.com; fax us at 1-800-207-8182 24 hours a day; write to DJG, Consumer Relations Department, P. O. Box 2609, Columbus, IN 47202-2609; or call 1-800-544-1108 from 8:00 a.m. to 6:00 p.m. EST Monday through Thursday and from 8:00 a.m. to 4:30 p.m. on Friday.

Proof of purchase is required and shipping charges are the responsibility of the consumer.

Warranty Limitations: This warranty does not include damages which arise from misuse or abuse of this product.

Limitation of Damages: The warranty and remedies as set forth are exclusive and in lieu of all others, oral or written, expressed or implied. In no event will DJG or the dealer selling this product be liable to you for any damages, including incidental or consequential damages, arising out of the use or inability to use this product.
